	min size 18”, limit 1. E of Nunnally and Merry Lakes along Lower Crab Creek near Beverly. WDFW plants 3000 in October: Hook are to be barbless (can use up to three), two poles are allowed, no bait is allowed, but lures are. Nets are to be knotless.
	Limit 1, minimum size 18”. Located off Lower Crab Creek near Beverly. Fly fishing only. Due East of Nunnally Lake and Due West of Lenice Lake. Mostly reeds at this time.
	Limit 1 fish, min size 18”. Due W of Merry and Lenice Lakes along Lower Crab Creek near Beverly. WDFW plants 3000 in October:
	Really a part of Nunnally Lake, west of Merry, so Nunnally stocking report was used. Nunnally size and daily limits apply.
▼ 4	
	Not in WDFW Special Regulations, but trespassing laws still apply. Ref 1 says good for all species. Black Lake is available by hiking S from Lower Goose Lake parking area on a trail ~1.2 miles due south. MAR-DON says no trout, lake appears to be privately owned so access may be an issue.
	Due N of Widgeon further than Hourglass or Shoveler. Ref 1 says good for rainbow trout in Cattail Lake. Recommended by WDFW biologist. WDFW plants 2000 in March. Hike in Pillar Widgeon chain
	Probably too small to bother with
